

# Senior Manager Warehousing -3PL

deSter Neu-Isenburg, Hesse, Germany (Hybrid)

## Company Description:

*Are you ready to join an international company that is focused on creating sustainable products for foodservice and airline industries?*

Probably at some point in your life you traveled on the plane & ordered some food or went to your nearby takeout place to buy a salad for lunch. In this case, you might have seen deSter products and didn't even know it. A lot of people don't realize that both worlds of airline cabin equipment and food packaging can be exciting, but it is more than that. deSter is unique in its industry because we source, design, manufacture and transport products which are aesthetically pleasing, functional and environmentally friendly. Our purpose is to create sustainable food and travel experiences and we need you on this journey.

If you want to be a part of a company that strives to create a better and more sustainable future, you are in the right place.

As Senior Manager Warehouse Services & Quality Assurance you will be responsible for the deSter warehouses at the German and Belgian sites, as well as the quality assurance of the equipment products.

## **Rresponsibilities:**

- Technical and disciplinary leadership of subordinate employees.
- Leading or participating in projects within the assigned area of responsibility, also on-site at the national/international locations if necessary.
- Selecting, integrating, managing and further developing strategic warehouse management and logistics service providers, taking into account economic aspects for the responsible regions, initiating measures if necessary.
- Ensure the creation and periodic updating of specifications (service descriptions) taking into account given quality standards and specifications.
- Monitor, optimize and ensure contractually agreed services and quality in warehouse handling as well as logistics processes based on KPIs
- Also ensure compliance and implementation of aviation security specifications and requirements of customers and authorities and conduct regular audits.

- Prepare, monitor and ensure compliance with annual budgets within the assigned area of responsibility and ensure proper inventory management (e.g. release of inventory entries, monitor progress of perpetual inventory, inventory execution)
- Expand, optimize as well as monitor IT tools
- Ensure the implementation of the agreed quality assurance and control of the products as well as the necessary documentation including an effective complaint management in case of internal and external customer complaints.

**Your Profile:**

- Degree in economics, preferably with a focus on logistics or supply chain management or academically comparable.
- Several years of professional experience in a corresponding area of responsibility and management experience
- Knowledge of task-related work processes, rules and guidelines
- Knowledge of workplace-related IT application systems
- Business fluent in German and English, written and spoken
- Ability to work in team and assertiveness as well as commitment, resilience and flexibility

Joining deSter means you will become a part of an innovative company with sustainability at heart and colleagues & customers globally. We have low hierarchies and a hands-on mentality, with teamwork being of high value. Besides that, we also offer hybrid way of working (office/remote) and a team of colleagues that have a passion & enthusiasm for what they do.
